SUMMARY

Mobile and full-stack developer with over 4 years of experience in software engineering and team leadership, expert in Flutter and NodeJS. My key achievements include developing 5 mobile applications that improved user satisfaction by 25% and mentoring staff which led to a 15% increase in employee retention. Seeking a Senior Mobile Engineer position at a forward-thinking technology company, where I bring my software engineering and team leadership skills to support your mission of delivering innovative solutions in the tech industry.

EXPERIENCE

02/2022 - Present

Beirut, Lebanon

Senior Software Engineer

CME Offshore

<https://www.gotocme.com>

Development of Mobile and Desktop Apps with Flutter, NodeJS, and Azure

- Developed 2 full-stack applications using Node.js, Serverless, Azure Functions, and Flutter for mobile and Windows platforms:
 - **Hapster**: Training software for onboarding employees on machinery
 - **Popshelf**: E-commerce app
- Developed (primarily front-end) 3 applications using Flutter and Android:
 - **kitalino** (formerly kidling): Germany's first digital daycare ecosystem
 - **Digicel**: Telecommunication Subscription management app
 - **Saudi Digital Bank**: Neo mobile banking app

Application Implementation

- Used **FFmpeg** for Hapster: Daily video generation on mobile devices and Windows apps
- Integrated **OAuth 2.0 SDK** for Digicel: Authentication software
- Implemented a **Family Banking** feature in the NEO Mobile App for Saudi Digital Bank, enabling users to add sub-accounts for their children

Team Leadership & Mentoring

- Improved employee retention by 15% through mentoring, structured onboarding, and project audits
- Conducted technical interviews

Technical Quality & Documentation

- Performed code reviews across multiple projects, enhancing code quality
- Created technical documentation and conducted research to improve overall project understanding
